GLOBAL HIMASALT

Himalayan Salt is 100% Natural, Pure, Original, Genuine & Contains 84 “Natural” Elements needed by the body. Himalayan salt comes from the primordial sea of the Himalayan region, sun dried and more than 250 million years ago.

Himalayan salt is unrefined chemically untreated, Non-iodized & naturally free from additives. This crystal salt contains wealth of cellular utilizable minerals and trace elements, such as sodium, potassium, iron, calcium & magnesium, which are essential for efficient cell metabolism.

FEATURES:

- ✓ Pure Pink Himalayan Salt coarse crystal salt grinder or salt mill.
(also available as fine ground crystals).
Unrefined. No additives or anti-caking agents flavorsome salt or fine cooking and all of your culinary needs.
- ✓ Hand mined & sun dried from clean ancient sea salt deposits
- ✓ Contains naturally occurring elements and minerals.
